Case Number: BC664654 Hearing Date: August 19, 2026 Dept: I

The application is DENIED.

Plaintiff seeks additional time to present the case. The court is not inclined to grant it at this time. The court will, of course,

consider any accommodations needed—as it has in the past. But at this point, it is premature. At the last trial, the court eventually had

to call a mistrial due to the time being taken.

The court believes that the witness lists remain too long and that

efficient examinations suggest that the time can be cut back to the court's guidelines. The court is willing to

address this in greater detail at the FSC, and the court will certainly at that

time increase the time constraints if it is necessary to do so. However, the request that is being made now

would wind up with something akin to 30 hours per side, which is 60 hours. Given that the court can only have 3 days of trial per week given plaintiff's request, and given that a trial day is 3.5

hours, this is becoming an 18 day trial—or about 6 weeks. If it is really going to be that long, the court will need to transfer it to Department 1.

This court will not and cannot devote that much time to a trial because it is not fair to the other litigants.

Because this court has already devoted quite a lot of time to this case,

the court would prefer to keep it if the court can do so. The court believes it is possible, but the court will not promote efficiency over due process. That can be better addressed at the FSC.
