Case #21CHCV00794

DEMURRER TO THE
FOURTH AMENDED COMPLAINT

Demurrer filed on 3/13/26.

MOVING PARTY: Defendant Nalco Company LLC (Doe 20)

RESPONDING PARTY: Plaintiff Estate of Rosa Pleitez, by
and through her husband, Rigoberto Pleitez

NOTICE: ok

Demurrer is to the entire Fourth Amended Complaint:

1. Negligence for Wrongful Death
2. Strict Products Liability
3. Survival Action

RULING: The demurrer is sustained without leave to

amend.

SUMMARY OF FACTS & PROCEDURAL HISTORY

This action arises out of Plaintiff Estate of Rosa Pleitez, by and through her husband, Rigoberto Pleitez's (Plaintiff) claim that from 10/13/19 through at least 9/21/20, Decedent Rosa Pleitez (Decedent) was exposed to chemicals and caustic products produced, manufactured, distributed and/or sold by Defendant Miles Chemical Company, Inc. (Miles Chemical), Macdermid Enthone, Inc. (Macdermid) and others while employed as a janitor for Carbonite Industries in Riverside, California. It is alleged that Decedent developed catastrophic interstitial lung disease with major injury and disability that affected her ability to work and support herself and her family and ultimately, was a substantial factor in her death on or about 3/26/22.

On 10/8/21, Plaintiffs Rosa Pleitez and Rigoberto Pleitez filed the original complaint in this action asserting causes of action for: (1) Strict Liability – Design Defect, (2) Strict Liability – Failure to Warn, (3) Negligence, (4) Breach of Implied Warranty and (5) Loss of Consortium. The original complaint alleged that from 10/13/19 through 9/21/20, Rosa Pleitez/Decedent was exposed to heavy chemicals and caustic products produced, manufactured, distributed and/or sold by different defendants while employed as a janitor at Carbonlite Industries in Riverside, California. (Complaint ¶¶1-2). While Plaintiff's 3rd cause of action in the complaint was titled "negligence," it was actually a claim for negligent products liability as it alleged "negligence in the manufacture, sale and distribution of dangerous and defective product[,] design defects and failure to provide adequate and accurate warnings, contained on their chemical products ..." (Complaint ¶72). The complaint alleged that Decedent discovered her toxic exposure at the Carbonlite factory in September 2020. (Complaint ¶5).

On 3/26/22, Plaintiff Rosa Pleitez/Decedent died. (First Amended Complaint ¶2). On 5/24/23, Plaintiff Estate of Rosa Pleitez, by and through her husband, Rigoberto Pleitez (Plaintiff) filed a First Amended Complaint asserting causes of action for: (1) Wrongful Death and (2) Survival Action. The First Amended Complaint alleges that from 10/13/19 through 9/21/20, Decedent was exposed to defective chemicals produced, manufactured, distributed and/or sold

by Defendants while employed as a janitor for Carbonite Industries in Riverside, California. (FAC ¶¶1-2).

Plaintiff's 2nd cause of action for survival action in the First Amended Complaint was based on the same strict liability – design defect, strict liability – failure to warn, products liability – negligence and breach of implied warranty claims alleged in the original complaint. (See FAC ¶53).

Pursuant to a Stipulation and Order, on 4/14/25, Plaintiff filed a Second Amended Complaint alleging causes of action for: (1) Wrongful Death against Miles Chemical, Macdermid and Does 11-200; (2) Survival Action against Miles Chemical, Macdermid and Does 1-200 and (3) Negligence against Prologis and Does 1-10. (See 4/14/25 Revised Stipulation & Order and Second Amended Complaint).

After the Court sustained the demurrer of Defendants Prologis Targeted U.S. Logistics Fund, L.P. (Doe 1) and Prologis, L.P (Doe 2) (collectively, the Prologis), on 8/21/25, Plaintiff filed a Third Amended Complaint alleging causes of action for: (1) Wrongful Death against all Defendants including Does 1-200; (2) Strict Products Liability against Miles Chemical Company, Inc., Macdermid Enthone including Does 1-200; and (3) Survival Action "Against Defendants and Does 1 through 200, Inclusive."

On 9/10/25, Prologis filed and served a motion to strike the Third Amended Complaint on the ground that it was untimely filed and a demurrer to the Third Amended Complaint which were scheduled for hearing on 12/12/25. On 10/9/25, pursuant to a stipulation between Plaintiff and Defendants Macdermid Enthone, Inc. and Miles Chemical Company, the Court ordered that Macdermid Enthone, Inc. and Miles Chemical Company had until 11/7/25 to file a response to the Third Amended Complaint and Plaintiff had until 11/7/25 to file a further amended complaint. (See 10/9/25 Stipulation and Order).

On 11/12/25, Plaintiff filed the subject Fourth Amended Complaint (4AC). The Fourth Amended Complaint alleges the following causes of action: (1) Negligence for Wrongful Death against "all defendants including Does 1 through 200, inclusive"; (2) Strict Products Liability against "all Chemical Defendants including Does 1 through 200, inclusive" (Chemical Defendants are defined as Miles Chemical Company, Inc. and Macdermid Enthone, Inc. and Does 10-200)

(4AC ¶¶1, 6) and (3) Survival Action “against Defendants and Does 1 through 200, inclusive.”

On 12/19/25, the Court sustained Prologis’ demurrer to the Fourth Amended Complaint without leave to amend. On 1/5/26, the Court entered a judgment of dismissal of Prologis with prejudice. On 1/6/26, filed Doe amendments naming Nalco Company LLC (Nalco) in place of Doe 20. On 1/21/26, Plaintiff served Nalco.

After meet and confer efforts failed to resolve the issues Nalco had with the Fourth Amended Complaint, on 3/13/26, Nalco filed and served the instant demurrer to the entire Fourth Amended Complaint. (See Heidarzadeh Decl.). Plaintiff has opposed the demurrer and Nalco has filed a reply to the opposition.

ANALYSIS

***The opposition indicates that Plaintiff does not oppose the dismissal of Decedent’s “personal injury and survival/personal claims against Ricca under § 583.210.” (See Opposition, p.2:7-9). Presumably, Plaintiff intended to state that Plaintiff does not oppose the dismissal of the 2nd and 3rd causes of action as to Nalco because the opposition only addresses the demurrer as to the 1st cause of action for wrongful death. (See Opposition, p.2:10-11 and generally). Therefore, the analysis only addresses the 1st cause of action.

Statute of Limitations

Generally, an amended complaint that adds a new defendant does not relate back to the date of filing the original complaint and the statute of limitations is applied as of the date the amended complaint is filed, not the date the original complaint was filed. Woo (1999) 75 CA4th 169, 176. CCP 474 provides an exception to the general rule when a new defendant is substituted for a fictitious Doe defendant named in the original complaint as to whom a cause of action was stated in the original complaint. Id.

An action for injury to, or for the death of, an individual caused by the wrongful act or neglect of another must be filed within two years of the injury. CCP 335.1. The statute of limitations usually begins when a cause of action accrues which is generally the date of injury. Bernson (1994) 7 C4th 926, 931. A demurrer may be sustained on the basis that the untimeliness of a lawsuit appears on the face of the complaint and matters judicially noticed. Hamilton (2023) 98 CA5th 417, 423.

The statute of limitations for the 1st cause of action for wrongful death began to run on 3/26/22, the date of Decedent's death. (See FAC ¶122); Kincaid (2011) 197 CA4th 75, 80. Plaintiff did not name Nalco as a defendant until 1/6/26, more than 2 years after the cause of action accrued.

The relation-back doctrine, under CCP 474, may save an otherwise time-barred amended complaint that substitutes a new defendant in place of a Doe defendant if the following requirements are met: (1) the amended complaint is based on the same general set of facts as the original; (2) the original complaint stated a valid cause of action against the now-identified defendant; and (3) the plaintiff was "genuinely ignorant" of the defendant's identity or the facts rendering defendant liable when the original complaint was filed. Eghtesad (2020) 51 CA5th 406, 417.

Here, Nalco was substituted in this case as Doe 20 on 1/6/26, well after the two year statute of limitations expired on 3/26/24. Plaintiff fails to satisfy the second and third Eghtesad factors in order for the relation-back doctrine to apply. It is also noted that the Fourth Amended Complaint alleges that Decedent was injured based on exposure due to lack of ventilation whereas the complaint and First Amended Complaint were based merely on exposure to certain chemicals. (See 4AC ¶¶19, 24; FAC ¶120); See Coronet Manufacturing Co. (1979) 90 CA3d 342, 347.

The First Amended Complaint, which is the first pleading to allege a wrongful death claim, fails to plead a valid cause of action against Nalco. The wrongful death claim appears to be based

on strict product liability theories which require that Plaintiff allege that Decedent was exposed to each of the toxic materials claimed to have caused a specific illness; identify each product that allegedly caused the injury; the toxins entered Decedent's body as a result of the exposure; Decedent suffered from a specific illness and that each toxin that entered Decedent's body was a substantial factor in bringing about, prolonging, or aggravating the illness; and each toxin Decedent absorbed was manufactured or supplied by a named Defendant. See Bockrath (1999)

21 C4th 71, 80. A plaintiff cannot rely on speculation that a defendant's product may have caused harm and hope to later discover supporting facts. Id. at 81; See also Jones (2011) 198 CA4th 1187, 1195. Here, Plaintiff does not list or otherwise identify any specific toxic material to which Decedent may have been exposed that could have been attributed to Nalco. Id. at 1191.

Plaintiff has also failed to establish genuine ignorance of Nalco's identity before it was named in place of Doe 20 on 1/6/26. The original complaint alleged that Decedent discovered in or around September 2020 that her injuries were caused by exposure to chemicals "while employed as a janitor for Carbonlite Industries in Riverside, California." (Complaint ¶1). The original complaint was filed on 10/8/21. Plaintiff's delayed discovery argument is without merit. Plaintiff fails to explain why he and/or Decedent did not have the ability to obtain the information to identify Does 1-200 at that time the action was filed or soon thereafter by issuing a subpoena to Decedent's employer regarding the products used at the facility. Instead, Plaintiff waited more than four years to name Nalco in place of a Doe defendant.

Failure to Allege Sufficient Facts to State a Cause of Action Against Nalco

The Fourth Amended Complaint fails to clearly identify Nalco's role in this case. The Fourth Amended Complaint merely alleges that Nalco as Doe 20 sold an "unknown chemical," "caustic product," or "dangerous substance[] and debris" to Carbonlite Industries that caused Decedent's injury, interstitial lung disease. (4AC ¶¶6, 19, 24, 27). The vague references to "other unknown chemicals and caustic products" or "dangerous substances and debris" are

insufficient under the standard articulated in Bockrath for a product liability claim based on exposure to toxic chemicals.

Plaintiff's reliance on the protective order to alleviate these pleading requirements is without merit. Plaintiff cites no authority for the proposition that he is not required to identify the at-issue product attributable to Nalco based on a protective order. Plaintiff also fails to explain how the identity of the products allegedly sold to Decedent's employer by various defendants amounts to "proprietary information." Moreover, to the extent certain information identifying these products is encompassed by the Protective Order, the Protective Order permits disclosure when made for the purpose of advancing claims or defenses. (Protective Order at ¶ 18(i)). Identifying the product for which Nalco is allegedly liable is necessary to advance Plaintiff's causes of action. Bockrath, *supra* at 79-80. The Fourth Amended Complaint does not identify any specific allegedly defective product attributable to Nalco as is required to assert a wrongful death cause of action based on products liability.

Failure to Timely Serve Action

Even if Plaintiff's wrongful death cause of action did not otherwise fail, it is subject to dismissal for failure to effectuate service on Nalco within 3 years of inception of the action. See CCP 583.210(a); CCP 583.250. The deadline is not extended by the fact that Nalco was named in place of a Doe defendant. See Higgins (2017) 15 CA5th 973, 975, 982. Here, Nalco was served in January 2026 which is more than 4 years after this action was commenced on 10/8/21.

Dismissal is mandatory pursuant to CCP 583.250 which provides:

"(a) If service is not made in an action within the time prescribed in this article:

(1) The action shall not be further prosecuted and no further proceedings shall be held in the action.

(2) The action shall be dismissed by the court on its own motion or on motion of any person interested in the action, whether named as a party or not, after notice to the parties.

(b) The requirements of this

article are mandatory and are not subject to extension, excuse, or exception except as expressly provided by statute.”

As noted above, the opposition concedes that Plaintiff is only pursuing the 1st cause of action for wrongful death against Nalco. (See Opposition, p.2:7-11). The Court has already determined that the 1st cause of action for Negligence for Wrongful Death does not extend the 3-year deadline. As noted in the Court's 6/17/26 ruling:

In Clark [(1987) 197 CA3d 50], the Court of Appeal upheld the dismissals of two defendants who had initially been named fictitiously in the complaint on the ground that plaintiffs failed to serve the complaint on defendants within the two-year period provided in CCP 583.420. In Clark, on 8/20/82, the decedent filed a products liability action alleging injuries caused by exposure to asbestos. Clark, supra at 53. On 10/24/83, after the decedent's death, on 11/8/82, the decedent's wife was permitted to file an amended complaint to prosecute the decedent's claims and to add a wrongful death claim. Id. On 10/28/84, the plaintiff wife filed a new action alleging only wrongful death against the same defendants and added Does 1 to 1,000. Id. The allegations in the new action concerned the “same chemical substances named in the original action.” Id. at 53-54. In other words, the wife's new complaint for wrongful death was based on the same set of factual allegations. On 4/18/86, the wife's complaint was amended to name Stabond Corporation (Stabond) as one of the Doe defendants. Id. at 54. The court explained that the use of the CCP 474 ‘relation-back doctrine’ was ‘ultimately limited by [S]ection 583.210 which provides that, in any event, a defendant must be served within three years.’ Id. at 56.”

(See 6/17/26 Minute Order, p.4).

Similarly, here, Decedent and Rigoberto Pleitez commenced an action on 10/8/21, alleging various claims against named defendants and Does 1-200. (See Complaint). As to Doe 20, the complaint alleged that “unknown chemicals and caustic products sold by DOES 1 through 200 contain recognized contaminants and caustic substances which are scientifically known to cause and/or contribute to the development of

interstitial lung disease and directly caused and/or contributed to the development of Plaintiff's interstitial lung disease." (Complaint ¶¶ 5, 20, 42-43). After Decedent's death on 3/26/22, the Estate of Rosa Pleitez, by and through her husband, Rigoberto Pleitez, converted the claims to wrongful death and negligence against Nalco as Doe 20. However, the basis for the claims in the First Amended Complaint remained unchanged. (See FAC ¶¶ 5, 20, 53). The basis of the allegations against Nalco as Doe 20 also remain unchanged in the operative Fourth Amended Complaint. (Compare Complaint ¶5 with 4AC ¶¶ 6, 24). Therefore, this action commenced against Nalco as of the date of the filing of the Complaint on 10/8/21.

CONCLUSION

The demurrer is sustained without leave to amend.

The opposition indicates that Plaintiff is only pursuing the 1st cause of action for wrongful death against Nalco. (See Opposition, p.2:7-11). As such, the Court finds that Plaintiff has conceded that the demurrer by Nalco as to the 2nd and 3rd causes of action is meritorious. For the reasons set forth above, Plaintiff's 1st cause of action also fails.

Plaintiff has now had multiple opportunities to plead his claims and has failed to adequately do so. More importantly, certain of the defects noted above are fatal to Plaintiff's claims against Nalco and cannot be cured by amendment.
