Case Number: 22STCV41010 Hearing Date: July 31, 2026 Dept: 734

The Court has reviewed the ex parte application of Defendant American Honda Motor Co., Inc., which requests either an order advancing the October 8, 2026 hearing on its motion to compel Plaintiff to submit to a vehicle inspection, or alternatively, continuing the trial date to allow the motion to be heard sufficiently in advance of trial to give Defendant time to conduct the inspection and prepare for trial. The Court deems the matter suitable for decision in chambers without argument.

The Court's motion calendar does not have sufficient capacity to accommodate an earlier hearing on the motion to compel. Therefore, the Court vacates the final status conference and trial dates, and sets a trial setting conference for October 8, 2026 at 8:30 a.m., concurrent with the hearing on Defendant's motion to compel. The discovery cutoff and discovery motion cutoffs are not extended except as to (1) expert discovery, (2) the vehicle inspection at issue in Defendant's motion, and (3) any further motions relating to the scheduling or conduct of the vehicle inspection.

This case was filed nearly four years ago. To prevent this case from causing further congestion of the Court's trial calendar, the Court admonishes Plaintiff that if the issue of a vehicle inspection is not timely resolved, the Court may soon consider setting an order to show cause regarding dismissal pursuant to Code of Civil Procedure section 583.410 and Rule of Court 3.1342.
