8. CU0002702 BlueStar Construction, LLC vs. Bruce Lecuyer, et al.

Defendant/Cross-Complainants' unopposed Motion to Reclassify this matter as a limited civil action is GRANTED. The Court grants the requests for judicial notice of the Complaint filed on March 10, 2026 and the Answer filed on May 1, 2026 noting the existence and allegations though not the truth of the matters asserted. The Court denies the request to take judicial notice of the Cross-Complaint filed on May 1, 2026 as an amended Cross-Complaint has since been filed making the pleading filed on May 1, 2026 moot. The Court notes, in reclassifying this matter as a limited civil action, the case number will not change, but the jurisdictional limits imposed will be those set forth in CCP sections 85 and 86 for a limited civil action. In reclassifying the case, the Court finds this case has been improperly classified based on the amounts alleged owing in the Complaint, and, to the extent Cross-Complainants (who seek an unspecified amount of damages, costs and fees) have willingly subjected their cross-claims to the jurisdictional limits for a limited civil action. Moreover, the Court finds good cause exists for allowing the motion to proceed despite the fact it was filed after Defendants' time to respond to the Complaint in this matter. See, CCP section 403.040(b). In reclassifying from an unlimited civil filing to a limited civil filing, not reclassification fee is due.
