CVMV2506551	GUTIERREZ HERNANDEZ vs STATE FARM MUTUAL AUTOMOBILE INSURANCE COMPANY	PETITION FOR ORDER COMPELLING ARBITRATION

Tentative Ruling:

GRANT. Parties to agree on an arbitrator.

Petitioners' demand to arbitrate is not premature. Petitioners have now provided oral testimony under oath and have provided requested documents to State Farm. State Farm seeks additional records, such as cellular phone records, photographs with metadata, etc., but State Farm provides no authority that it is entitled to those records. To the extent that further discovery is necessary, the parties can address that matter with the arbitrator.

No sanctions.

CVRI2403972	WATKINS vs ANDREW PAUL ORDON M.D.	MOTION FOR SUMMARY ADJUDICATION ON 2ND AMENDED COMPLAINT

Tentative Ruling:

GRANT the Motion for Summary Adjudication.

On June 15, 2026, this motion came on for hearing. The court granted Plaintiff's request for a continuance of the hearing and ordered Plaintiff to file a declaration from her doctors or other medical experts in opposition to Defendant's motion for summary adjudication by 7/15/26. Plaintiff has failed to do so and instead has filed a self-serving declaration requesting additional time and a further continuance. The request for an additional continuance does not comply with the requirements of CCP § 437c(h). Plaintiff does not identify what she anticipates the testing will reveal or when she anticipates the testing will be completed. She has not shown that the proposed discovery will lead to facts essential to justify opposition.

SUSTAIN Defendant Paul Ordon, M.D.'s Evidentiary Objections, 1-14, to the Supplemental Declaration of Plaintiff Linda Faye Watkins.

SUSTAIN Defendant Andrew Paul Ordon, M.D.'s ("Ordon") evidentiary objections, Nos. 1 through 30, to Plaintiff's Evidence in Opposition to the Motion for Summary Adjudication. Plaintiff's declaration in support of the opposition is replete with hearsay,
