Tentative Ruling: Plaintiff's Motion to Compel are denied as untimely.

Plaintiff's Motions to compel were filed and served on August 5, 2026. CCP §2024.020 (a) provides "[e]xcept as otherwise provided in this chapter, any party shall be entitled as a matter of right to complete discovery proceedings on or before the 30th day, and to have motions concerning discovery heard on or before the 15th day, before the date initially set for the trial of the action." Trial is set for September 11, 2026. The 15th day before trial is August 27, 2026.

However, CCP §1005(b) provides "[u]nless otherwise ordered or specifically provided by law, all moving and supporting papers shall be served and filed at least 16 court days before the hearing. The moving and supporting papers served shall be a copy of the papers filed or to be filed with the court. However, if the notice is served by mail, the required 16-day period of notice before the hearing shall be increased by five calendar days if the place of mailing and the place of address are within the State of California... if the notice is served by facsimile transmission, express mail, or another method of delivery providing for overnight delivery, the required 16-day period of notice before the hearing shall be increased by two calendar days. Here, the motion was served by "email service" or electronic service. 16 court days, plus the 2 calendar days requires that the motion be served by August 3, 2026.
