Case Number: BC709376 Hearing Date: September 23, 2026 Dept: 400

DISCOVERY MOTIONS

The Court

tenders the following decision in the matter Iman Sadeghi v.

Pinscreen Inc., et al., Los Angeles County Superior Court case number BC709376,

set for hearing on September 23, 2026. Iman Sadeghi (Plaintiff), brings the

following 8 motions: (1) compelling Defendant Hao Li to serve further responses

to his form interrogatories, set two (FROGs), pursuant to Code of Civil

Procedure section 2030.300; (2) compelling Defendant Pinscreen, Inc.

(Pinscreen) to serve further responses to his FROGs pursuant to section

2030.300; (3) compelling Li to serve further responses to his special

interrogatories, set two (SPROGs), pursuant to section 2030.300; (4) compelling

Pinscreen to serve further responses to his SPROGs pursuant to section 2030.300;

(5) compelling Li to serve further responses to his requests for production,

set two (RFPs), pursuant to section 2031.310; (6) compelling Pinscreen to serve

further responses to his RFPs pursuant to section 2031.310; (7) compelling Li

to comply with the Court's February 24, 2026, order pursuant to section

2031.320; and (8) compelling Li and Pinscreen (collectively, Defendants) to

comply with the Court's March 16, 2026, order pursuant to section 2031.320.

Plaintiff also requests a collective \$13,565 in monetary sanctions, along with

evidence and issue sanctions. The Court will address each motion in turn.

A.

Plaintiff's motions to compel further responses to

FROGs are granted with respect to FROGs 4.1, 4.2, 12.1–12.7, 14.1, 14.2, 15.1,

and 50.1–50.6 only.

Plaintiff moves

to compel further responses to FROGs propounded on Defendants pursuant to Code of Civil Procedure section 2030.300. A party may move for an order compelling further responses to interrogatories if the propounding party deems that responses are incomplete, evasive, contain meritless objections, or improperly exercise the option to produce documents under section 2030.230. (Code Civ. Proc., § 2030.300, subd. (a).) Specifically, Plaintiff seeks further responses to FROGs 4.1, 4.2, 12.1–12.7, 13.1, 13.2, 14.1, 14.2, 15.1, 16.1–16.10, 17.1 and 50.1–50.6 from Defendants. Though Plaintiff's separate statements in support of both motions identify other interrogatories, further responses were not sought in the respective notices of motion. The Court limits its analysis to those interrogatories identified in the notice.

Plaintiff

served the relevant FROGs on Defendants on January 23, 2026. (Zaffos Decl. FROGs ¶ 7.) Thereafter, he granted multiple extensions creating a new response deadline of March 6, 2026. (Id. ¶ 9.) Defendants served unverified responses on March 7, 2026, at 12:48 A.M. (Serpik Decl. FROGs ¶ 3.) The failure to timely respond to interrogatories waives any objections as to the interrogatories. C.C.P. section 2030.290(a). The parties met and conferred over the following few months but failed to reach an informal resolution. (Zaffos Decl. ¶¶ 11–15.) Plaintiff filed the present motions to compel further responses on July 6, 2026.

Defendants

argue that they have properly responded to the FROGs. First, they contend that they need not accept Plaintiff's definition of the relevant "incident." Plaintiff defines the incident as "Dr. Hao Li's offer for sale of securities in form of equity awards constituting 2.3% of Pinscreen's shares, vesting over four years to Dr. Iman Sadeghi." (Zaffos Decl., Ex. 1 ¶ 4(a)(2).) As Defendants note, they dispute this premise. However, this dispute does not prevent them from responding to the relevant discovery requests as there is no mystery as to the subject matter of the request.. Plaintiff properly identifies Defendants' responses as evasive, as they refuse to provide relevant information based on the terminology used in Plaintiff's definition of the relevant incident.

Second,

Defendants argue that they provided complete responses to FROGs 4.1, 4.2, 12.2–12.7, 13.1, 13.2, 14.1 and 14.2. FROGs 4.1 and 4.2 ask for insurance information from Defendants, who refuse to provide it based on Plaintiff's definition of the incident that occurred. This response is evasive and

Defendants must provide further responses. FROGs 12.1–12.7 ask Defendants to provide information related to any individuals who may have witnessed or made a report about the incident. Once again, Defendants' objection to the definition of incident is without merit and further responses must be provided. FROGs 14.1 and 14.2 require further responses for the same reason. However, Defendants have provided sufficient responses to FROGs 13.1 and 13.2 in denying that they conducted any surveillance.

Third,

Defendants argue that they need not provide responses to FROG 15.1 because it seeks to reopen discovery which has been closed. However, this FROG is proper with respect to Plaintiff's 8th through 11th causes of action. Defendants must provide further responses related to those causes of action only.

Fourth,

Defendants argue that responses to FROGs 16.1–16.10 are not necessary because those FROGs relate to personal injury matters. Indeed, those FROGs are irrelevant to the "incident" defined by Plaintiff, which does not involve a personal injury. Thus, further responses are not required and Defendants' answers are sufficient.

Fifth,

Defendants argue that they have sufficiently responded to FROG 17.1. Indeed, Defendants properly explained their responses to Plaintiff's requests for admission. Thus, further responses are not required.

Sixth, Defendants

argue that they need not offer further responses to FROGs 50.1–50.6. However, their responses improperly object to Plaintiff's definition of the relevant incident and are thus evasive in failing to provide the requested information. Additionally, the FROGs do not seek to force Defendants to provide information related to causes of action other than the 8th through 11th. Thus, further responses are required. Accordingly, Plaintiff's motions to compel further responses are granted in part: Defendants are ordered to provide further responses to FROGs 4.1, 4.2, 12.1–12.7, 14.1, 14.2, 15.1, and 50.1–50.6 only.

B. Plaintiff's motions to compel further responses to SPROGs are granted in full.

Plaintiff moves to compel further responses to SPROGs propounded on

Defendants pursuant to Code of Civil Procedure section 2030.300. A party may move for an order compelling further responses to interrogatories if the propounding party deems that responses are incomplete, evasive, contain meritless objections, or improperly exercise the option to produce documents under section 2030.230. (Code Civ. Proc., § 2030.300, subd. (a).) Specifically, Plaintiff seeks further responses to SPROGs 1–13 from Defendants.

Plaintiff served the relevant SPROGs on Defendants on January 23, 2026. (Zaffos Decl. FROGs ¶ 7.) Thereafter, he granted multiple extensions creating a new response deadline of March 6, 2026. (Id. ¶ 9.) Defendants served unverified responses on March 7, 2026, at 12:48 A.M. (Serpik Decl. FROGs ¶ 3.) The parties met and conferred over the following few months but failed to reach an informal resolution. (Zaffos Decl. ¶¶ 11–15.) Plaintiff filed the present motions to compel further responses on July 6, 2026.

As discussed with respect to Plaintiff's motions for further responses to FROGs, Defendants' late responses to the SPROGs waived all objections and Defendants have not sought relief from waiver. By providing late responses, Defendants also waived their right to produce writings pursuant to Code of Civil Procedure section 2030.230. (Code Civ. Proc., § 2030.290, subd. (a).) Defendants' responses to SPROGs 1–6 and 10–13 are replete with waived objections; thus, further responses are required. Additionally, Defendants improperly seek to produce writings pursuant to section 2030.230 despite their waiver in response to SPROGs 7–9. Further responses are thus required to these SPROGs as well. Accordingly, Plaintiff's motions are granted in full.

C. Plaintiff's motions to compel further responses to RFPs are granted in full.

Plaintiff moves to compel further responses to RFPs propounded on Defendants pursuant to Code of Civil Procedure section 2031.310. A party may move for an order compelling further responses to requests for production if the propounding party deems that responses are incomplete, evasive, or contain meritless objections. (Code Civ. Proc., § 2031.310, subd. (a).) "The motion shall set forth specific facts showing good cause justifying the discovery sought by the demand." (Id., § 2031.310, subd. (b)(1).) Specifically, Plaintiff seeks further responses to RFPs 1–38 from Defendants.

Plaintiff served the relevant RFPs on Defendants on January 23, 2026. (Zaffos Decl. FROGs ¶ 7.) Thereafter, he granted multiple extensions creating a

new response deadline of March 6, 2026. (Id. ¶ 9.) Defendants served unverified responses on March 7, 2026, at 12:48 A.M. (Serpik Decl. FROGs ¶ 3.) The parties met and conferred over the following few months but failed to reach an informal resolution. (Zaffos Decl. ¶¶ 11–15.) Plaintiff filed the present motions to compel further responses on July 6, 2026. As discussed with respect to Plaintiff's motions for further responses to FROGs, Defendants' late responses to the RFPs waived all objections and Defendants have not sought relief from waiver. (See Code Civ. Proc., § 2031.300, subd. (a).)

As a threshold matter, Plaintiff has set forth facts demonstrating good cause exists for the present discovery. The RFPs seek information related to Plaintiff's 8th through 11th causes of action. Specifically, they seek documents related to: (1) Plaintiff's alleged equity interest; (2) Pinscreen's valuation; (3) capitalization tables within a certain timeframe; (4) investor meetings; (5) the Pinscreen equity incentive program; and (6) Plaintiff's allegations and Defendants' affirmative defenses. (Zaffos Decl. ¶ 16.) This is a sufficient showing to justify Plaintiff's motions to compel further responses.

Further, Defendants offer objections to every RFP despite them having been waived by the late response. These objections are sufficient grounds for further responses to be compelled. Accordingly, Plaintiff's motions are granted in full.

D. Plaintiff's motion to compel compliance with the Court's February 24, 2026, prior order is granted. The motion to compel compliance with the March 16, 2026, order is denied.

Plaintiff moves to compel compliance with the Court's prior orders from February 24 and March 16 of this year. After a trial court has previously ordered a party to provide discovery responses, "if a party then fails to obey an order compelling inspection, copying, testing, or sampling, the court may make those orders that are just, including the imposition of an issue sanction, an evidence sanction, or a terminating sanction under Chapter 7 (commencing with Section 2023.010). In lieu of or in addition to that sanction, the court may impose a monetary sanction under Chapter 7 (commencing with Section 2023.010)." (Code Civ. Proc., § 2031.320, subd. (c).)

On February 24, 2026, the Court ordered Li to provide further responses to Plaintiff's first set of RFPs, numbers 1–7, within 10 days. Li provided

amended responses on September 10, 2026, offering a response to RFP 6 for the first time and amending his responses to RFPs 1–5 and 7. (Serpik Decl. ¶ 10, Ex. D.) The amended responses are objection free, as required under the Court's order. But Li has not shown that he has produced the relevant documents, and the amended responses were provided far after the 10-day deadline. Thus, Plaintiff's motion is still properly granted and sanctions are still warranted.

On March 16, 2026, the Court ordered Pinscreen to “(a) identify those individuals whose investments in Pinscreen form the basis for the valuation(s) and (b) to the extent that the names of the investors may be obtained by reviewing documents already produced, Defendant may respond by identifying by Bates number where that information may be found.” Additionally, Pinscreen was instructed to produce the information contained on the hard drive of Plaintiff's further work computer in its native format. The Court set a compliance deadline of April 13, 2026. On April 15, 2026, Pinscreen provided information regarding investments made and in which documents those investments could be found. Pinscreen also produced the requested digital documents that same day, with history and cache data stored on Plaintiff's work computer. While further compliance is not required, Pinscreen did offer responses after the deadline, justifying sanctions.

E. Plaintiff is awarded \$7,407.50 in sanctions.

Sanctions are warranted when a party unsuccessfully opposes a motion to compel further responses to inspection demands or interrogatories without substantial justification. (Code Civ. Proc., §§ 2030.300, subd. (d), 2031.310, subd. (h).) Additionally, the Court may impose a monetary sanction for a party's failure to comply with a prior order demanding production. (Id., § 2031.320, subd. (c).) The Court declines to impose issue or evidence sanctions at this time, viewing monetary sanctions as sufficiently effective. Thus, the Court imposes monetary sanctions on Defendants with respect to Plaintiff's motions to compel compliance, motions to compel further responses to SPROGs, and motions to compel further responses to RFPs. The Court finds that Defendants demonstrated substantial justification for opposing Plaintiff's motions to compel further responses to certain FROGs.

Counsel alleges 9 hours at \$330 per hour and 0.5 hours at \$350 per hour of attorney time and a \$60 filing fee with respect to Plaintiff's motions to compel further responses to FROGs and RFPs. Because the Court only awards sanctions with respect to the RFP motions, it reduces the requested fees by

half. Thus, the Court awards \$1,632.50 with respect to these motions ($[\$330 \text{ per hour}] \times [9 \text{ hours}] + [\$350 \text{ per hour}] \times [0.5 \text{ hours}] + [\$60 \text{ filing fee}] = \$1,632.50$). Counsel alleges an additional 4 hours at \$330 per hour and 0.5 hours at \$350 per hour of attorney time and a \$60 filing fee with respect to Plaintiff's motions to compel further responses to SPROGs. The Court finds this estimate reasonable and thus awards \$1,555 in sanctions with respect to those motions ($[\$330 \text{ per hour}] \times [4 \text{ hours}] + [\$350 \text{ per hour}] \times [0.5 \text{ hours}] + [\$60 \text{ filing fee}] = \$1,555$). Counsel alleges 11 hours of attorney time at \$395 per hour and 0.5 hours at \$150 per hour and a \$60 filing fee related to the motion to compel compliance with the Court's February 24 order. The Court finds a 5 hour estimate of the attorney time at \$395 per hour more reasonable, and thus awards \$2,110 with respect to this motion ($[\$395 \text{ per hour}] \times [5 \text{ hours}] + [\$150 \text{ per hour}] \times [0.5 \text{ hours}] + [\$60 \text{ filing fee}] = \$2,110$). Finally, Counsel alleges 10 hours of attorney time at \$395 per hour and 0.5 hours at \$150 per hour and a \$60 filing fee related to the motion to compel compliance with the Court's March 16 order. The Court finds a 5 hour estimate of the attorney time at \$395 per hour more reasonable, and thus awards \$2,110 with respect to this motion ($[\$395 \text{ per hour}] \times [5 \text{ hours}] + [\$150 \text{ per hour}] \times [0.5 \text{ hours}] + [\$60 \text{ filing fee}] = \$2,110$). Accordingly, Plaintiff is awarded \$7,407.50 in sanctions, payable by Defendants' counsel.

Conclusion:

The Court grants Plaintiff's motions to compel further responses to RFPs and SPROGs and full and FROGs in part. The Court grants Plaintiff's motion to compel compliance with the February 24, 2026, order and denies Plaintiff's motion related to March 16 as moot. The Court awards Plaintiff \$7,407.50. Any further responses are due within 20 days. Sanctions to be paid within 30 days.
