COUNTY OF VENTURA**

Probate Notes

2026PRLP066535: IN THE MATTER OF DAVID CASTANON

08/14/2026 in Department J6

Hearing on Petition for Appointment of Conservator of the Person Only, Limited

Appoint PD.

The citation proof of service checks personal delivery but puts the date and time under mailing. Is a corrected proof of service showing personal delivery date and time required?

Subject to the foregoing, the Court intends to grant the petition for appointment. The Court intends to deny Probate Code section 2355 medical treatment powers based on the current declaration. The capacity declaration fails to complete most of Part II, which makes the declaration's finding that the proposed conservatee lacks capacity to consent to any form of medical treatment conclusory. There are no supporting findings.
