Cons of Robert Prushko

SPR53186

Fifth and Final Account and Report of the Trustee of the Robert Prushko Revocable Trust and Petition for its Settlement; Request for Allowance of Fees to the Trustee's Attorney; Request to Reimburse Legal Costs Advanced; Request for Final Distributions to the Trust Beneficiaries; Trustee's Request for Authorization to Retain Reserve Fund and for Discharge of Trustee

Tentative Ruling: The accounting reflects that the trust holds a Chase CD account with a value of \$500,000.00. The financial statement lodged in support shows the current balance of the account on March 12, 2026 was \$0.00. No other statement showing that the account was funded is provided. Therefore, the petitioner has failed to comply with California Probate Code §2620(c)(2). For this reason, the petition is CONTINUED to October 23, 2026 at 9:30 a.m. in Department 12 to allow the petitioner an opportunity to lodge the missing statement. If the petitioner can lodge the missing statement in advance of the hearing and if the petitioner requests to appear at the hearing in accordance with all local rules, they may appear at the hearing to present the statement to the court, potentially avoiding the continuance. Also, if the petitioner can lodge the statement in advance of the continued hearing, they may apply by drop-off ex parte to bring the statement to the Court's attention.
