JIMENEZ v FCA US, LLC

MOTION TO COMPEL INITIAL DISCLOSURES

This is a Song-Beverly, negligent repair, and fraud action filed on February 21, 2025, against defendants FCA US, LLC (“FCA”) and Watsonville Chrysler Dodge Jeep Ram. Plaintiff seeks to compel documents it asserts FCA did not disclose as required pursuant to Code of Civil Procedure section 871.26 and seeks \$2,500.00 in sanctions against FCA and its counsel.

In opposition, FCA contends plaintiff filed this motion without engaging in the meet and confer process and that it served disclosures and documents in a timely manner on or about June 23, 2025. (Opp. at p. 1.) FCA maintains it does have additional documents to produce but will provide them only after the execution of a stipulated protective order, which it circulated to plaintiff’s counsel on June 12, 2025. FCA contends that plaintiff’s counsel will not stipulate to the proposed protective order even though it has done so in other cases and is based upon the Los Angeles County Superior Court protective order model. (Decl. of Gavrilesco at ¶¶ 9-10, Ex. A.)

At the last hearing on June 8, 2026, plaintiff’s counsel requested a continuance because defendant had recently served the outstanding discovery and he sought time to review it. The parties are directed to appear to provide the Court with an update on the status of the discovery dispute.

BRIGHT v. CALIFORNIA FAIR PLAN ASSOCIATION

PLAINTIFFS’ MOTION TO COMPEL DEFENDANT CALIFORNIA FAIR PLAN ASSOCIATION’S PMQ

The motion is granted as discussed below.

This is an insurance bad-faith case brought by the Brights (“plaintiffs” or “Brights”) against their home insurer, the California Fair Plan Association (“CFPA”). Plaintiffs contend that CFPA denied their insurance claim for damage to their home after the CZU-fires in 2020. Specifically, CFPA denied their claim on the grounds that there was no physical damage caused by the fire and that their loss was confined to smoke and ash, which was not covered. Plaintiffs contend that CFPA amended its standard policy language to re-define “direct physical loss”, requiring actual loss or physical damage. Plaintiffs’ assert CFPA told the Department of
