CVRI2602416	CARRILLO vs LOPEZ	MOTION TO STRIKE COMPLAINT

Tentative Ruling: This case has a demurrer and motion to strike pending filed by the same party or parties where the hearing dates do not coincide. Pursuant to Cal. Rules of Court, rule 3.1322(b), when both a motion to strike and a demurrer are filed, the motion to strike "must be noticed for hearing and heard at the same time as the demurrer." Accordingly, the Court continues earlier-calendared hearing to the date currently set for the later-calendared hearing so that they can be heard together. The Court continues the hearing on the Motion to Strike Complaint to August 31, 2026.
