Matter of Harry Herman Meyer

26PR01000

Establish Record of death

Tentative Ruling: NO APPEARANCES REQUIRED. The petition is DENIED without prejudice based on lack of evidence. Additional types of evidence that petitioner may consider submitting in connection with any renewed petition may include, but are not limited to: marriage license; information about the outcome of family law proceeding (Was a divorce obtained? Did it involve adjudication of property rights? If not why not?); why the proceeding is brought here when the divorce proceeding was venued in another county; hiring of a professional heir search firm, or similar service, and report of findings (the attached email correspondence is wholly insufficient to establish due diligence). The Court notes that the publications attached are illegible. The Court is not unsympathetic to the difficulty the petitioner faces with regard to the current title of the real property, however, even she states she does "not know... if he is still alive."
