LORI WILLIAMS
BAYWOOD CAPITAL CORPORATION

PRO SE
DAVID J. STREZA

MOTION FOR ORDER DEEMING ADMITTED TRUTH OF FACTS AND GENUINNESS OF DOCUMENTS

TENTATIVE RULING:

On June 29, 2026, plaintiff Lori Williams filed a motion for order deeming admitted truth of facts and genuineness of documents. On July 28, 2026, at the case management/trial setting conference, with the parties' agreement, the hearing was advanced to August 4, 2026. If the motion had not been advanced, the trial could not have been set within five-years as all parties agreed that there had been no tolling.

The court DENIES the motion. It is unclear if plaintiff served requests for admissions to defendants and seeks to have matters admitted, or if she is seeking to have some of the facts she alleges deemed true. Regardless, she has not attached the Exhibit A to the motion and thus, the court cannot determine what Exhibit A is and whether it was properly served. She has not met her burden on the motion.

The parties shall APPEAR. Zoom appearances are allowed. The court wants to discuss the impact that the ruling has on the trial.

If the tentative ruling is uncontested, it shall become the order of the court. Thereafter, counsel for defendants shall prepare a written order consistent with the court's ruling for the court's signature, pursuant to California Rules of Court, rule 3.1312, and provide written notice of the ruling to all parties who have appeared in the action, as required by law and the California Rules of Court.
